

DARSHAN POWER SOLUTIONS

An Equipment Rental & Services Company

Eco Friendly Gensets

Set Realistic Expectations

About the Company

The rental leader and a stop destination specializing in eco friendly diesel generator sets. Darshan Power Solutions is one of the most professionally managed service provider, facilitating the rental services all over the nation. With a humble beginning from a small office in 2018, the unbeatable advantages, product support, and the exceptional overall services have helped us in thriving to the leadership position. Now we boast of 1000+ DG Sets along with other services that serves a host of segments like Real Estate Development, Automobile & Mobility Sector, Mining Sector etc. with an assurance of quality, safety and standard technical support. Fuel services & distribution panel is also taken care of here.

We have an unmatched range of young fleet of equipment with an average age of 4-5 years that ensure the maximum efficiency and reduce the chances of breakdowns. With better fuel efficiency and lesser pollution we ensure the sustainable development by putting lesser load on environment.

Our Team

Being headquartered at New Delhi, our strongly coherent team members are spread all over India. Our highly motivated team with an attitude of never giving up is always ready to face the new challenges and strive hard to deliver the exceptional customer experience. We ensure constructive communication between team-mates & are always open for discussions and innovations. The special technicians work around the clock to serve the clients.

DIESEL GENERATOR SETS

We have unmatched range of highly efficient Generator Sets with power ranging from 15 to 3000 KVA with an average age of 3-4 years only. With the guaranteed uptime, committed delivery, superior fuel consumption, we power the nation for the seamless operations.

Generator set is the most powerful & reliable source of back power in case of emergency across the world.

With such a wide range, we are able to rent the generator sets to different sections of the society, serving them in the purpose they want.
